

Grau Puche Recarens, designer and developer

email me at talk@graupuche.info • my website is graupuche.info • I have a blog blog.graupuche.info

24 year-old major in graphic design & web development skills, and a great focus on experiences. Both tangible and intangible. Specialized on these by pursuing a master's degree at NYU's Interactive Telecommunications Program.

And got a deeper dive into fullStack web development. Building my own servers and making use of them for various projects, combining the web and physical interfaces. To study interaction as a subject, and more specifically HCI.

Education

Spanish basic obligatory education (EPO & ESO)
2 year University Preparation Course on Science & Technology

MFA in Graphic Design
at **ESDI**, which is part of **Universidad Ramón Llull** (URL)

Eagle, Bantam Tools

Arduino and similars
Throught hole board-making
Surface mount electronics
(electronics, soldering, fabrication ...)
comfortable with power tools

html, css
javascript, node
Python
C#

Fast Learner; Faster **Prototyper**
Exceptional sense for **User experience**
Good with short deadlines
Looking for a fast paced work env.

End Note

I am what in the industry you would call a "**creative Technologist**" but I reather say that Im a highly creative person that has aquired and it's proficient in a variety of technical endeavours. That is way too long.

I'm a designer with a very techinal skillset, and I would say that this Resume does not make a good job at showing what I've been doing for the last couple of years. So please check out my website/blog (top of the page).
